PROFILE

Motivated Frontend Developer with experience in creating responsive and user-friendly web applications. Skilled in HTML, CSS, JavaScript, and React, with a strong understanding of modern development tools and practices. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Eager to leverage my skills in a dynamic and innovative environment.

PROJECTS

Expense Tracker 📁

Developed an expense tracker application using HTML, CSS, JavaScript and React.

- This project leveraged React hooks, reducers, and the context API to manage state and enhance the application's functionality.
- Used functional components and props.

Weather App 📁

Developed a dynamic weather application using HTML, CSS, and JavaScript, providing real-time weather updates and forecasts for user-specified locations.

- Leveraging async/await for efficient API data fetching and event handling for dynamic user interaction

PROFESSIONAL EXPERIENCE

Paytm Money, Software Engineer

Dec 2023 – present | Noida, India

As a Software Engineer at Paytm Money, I am currently involved in revamping the onboarding process, resulting in an increased customer base. Additionally, I have contributed to the testing of Stocks SIP and MF SIP, ensuring the end-to-end flow meets high-quality standards.

- Developed a deep understanding of React, utilizing hooks, reducers, and the context API to build dynamic and responsive applications.
- Efficiently managed version control and project collaboration using Git and GitHub.

Paytm Insurance, QA Engineer

Jun 2022 – Nov 2022 | Noida, India

Worked closely with various insurance provider companies to facilitate their integration with the Paytm Insurance platform.

- Conducted extensive end-to-end testing for each onboarded insurance provider to ensure seamless integration and functionality across the platform.
- Identified and resolved critical issues in the end-to-end flow, significantly enhancing the overall user experience.
